The Zug Registered GmbH allows ABMTC to operate as an Online Institution. The Degrees offered are strictly those of the Zug registered Company (American Business Management and Technology college). It is a non-traditional Globally focused Institution.

We are not a Swiss, EU or American Accredited Institution and do not pretend to be one. We cannot and do not guarantee that our DBA will be accepted as equal to US, EU , UK, India or other country equal qualification. We cannot and do not guarantee that it will be accepted for employment purposes, for immigration purposes and also be evaluated by all the Evaluation services. That decision is solely for the respective country, institution, and company or evaluation service to make. Even within the US University in one state may not accept the credentials of another state university even though it may be accredited. Some times the Universities within the same state in the US, do not even accept the qualifications that a student has acquired from a local community college if there is no reciprocal agreement to honour their academic and curriculum levels.

Even for the level of English Competence, a State University may not accept the level a student has achieved at the Community college if the student is a foreign or non state resident student.

In all such Cases the ABMTC always guides the students to do their own due diligence, and confirm things for themselves before seeking admission at the Institution. All Students are advised to confirm with their governmental or organizational and educational authorities about the acceptability before applying for study with us.

As a Corporate Professional Private Online Institution that is globally focused, the ABMTC seeks to maximize the value of degrees which its graduates get. We do this by obtaining relevant international accreditation from recognized professional bodies and international distance learning accreditation bodies. Listed separately students will find the Accreditation and Approvals so far received:

WE make all effort to ensure that all contract terms must be clear, fair and not misleading. We give students the clear, accurate and timely information that they need so they can make an informed decision about what and where to study; ensure that their terms and conditions are fair; and, ensure that their complaint handling processes are accessible, clear and fair.
